

DBMS Assignment-2 on DDL Constraints in MySQL

1. In the database schema that you have created in Assignment 1, implement the following DDL constraints:

- I. Primary key
- II. Foreign key/references
- III. Unique
- IV. Not null
- V. Null
- VI. Default
- VII. On delete
 - i. Cascade
 - ii. No Action
 - iii. SET NULL
 - iv. SET Default
- VIII. On update
 - i. Cascade
 - ii. No Action
 - iii. SET NULL
 - iv. SET Default

2. Put all your output screenshots and a PDF containing all the commands that you have executed, in a single zip file and upload
